**DETAILED ACTION**

1. The amendment filed 8/11/10 after a decision by the Board of Patent Appeals and Interferences is not entered because prosecution with respect to the affirmed claims is closed and the proposed amendment with regards to the affirmed claims was not suggested in an explicit statement by the Board under 37 CFR 41.50(c). As provided in 37 CFR 1.198, prosecution of the proceeding before the primary examiner will not be reopened or reconsidered by the primary examiner after a final decision of the Board except under the provisions of 37 CFR 1.114 (request for continued examination) or 37 CFR 41.50 without the written authority of the Director, and then only for the consideration of matters not already adjudicated, sufficient cause being shown. Given that a new ground of rejection was entered by the Board under 37 CFR 41.50(b) with respect to claims 69-72, **prosecution is reopened only with respect to Claims 69-72, the subject matter to which the new rejection was applied;** and the application is not considered open for further prosecution except as directed to such matters. See MPEP § 1214.01 and MPEP § 1216.06. It is noted that the proposed amendment of claims 69-72 filed 8/11/10 does not overcome the new ground of rejection entered by the Board on 6/28/10 nor has the Applicant provided any arguments to overcome the new rejection other than the statement that the proposed amendment of affirmed claim 1 (for which prosecution is closed) now limits the multilayer film or sheet to the surface of an automotive part, appliance part, or aviation. These arguments are not found persuasive because the amendment has not been entered and because Smith teaches a “polymer surface” that forms an “interior surface or exterior surface...of an automotive part” as claimed.

Art Unit: 1787

2. Hence, claims 69-72 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Smith for the reasons recited in the Board decision rendered on 6/28/10, wherein the Examiner further notes that Smith is directed to a polymer surface that forms an interior or exterior surface of an automotive part and hence even if claims 69-72 were amended to incorporate these limitations as well as all of the other limitations of base claim 1, the obviousness rejection would not be overcome.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
